

JOB DESCRIPTION

TITLE	Senior NetSuite Developer
DEPARTMENT	IT
REPORT TO	Digital Director
ROLE TYPE	Contract (12 Months, Immediate Start)
BASED IN	London W1T 3EY
SALARY	Competitive

COMPANY PROFILE

Orlebar Brown (Chanel group) launched in March 2007 as a more tailored approach to men's beach and swim shorts. Based on the traditional pattern of a tailored pair of trousers for men, and with their distinctive side fasteners, they are not just a swim short; they are the original and best shorts you can swim in.

Today, our collections are built into broader lifestyles imagined around Beach, Resort, Coast and Sport. We have multiple product releases, including capsules, new categories and services, over the calendar year to maintain excitement, and interest for our customers.

Since 2007, we have built the brand to achieve our stated purpose which is - to encourage, excite and inspire everyone to 'Holiday Better'. This is our purpose and why we get out of bed every morning.

The brand has rapidly gained global recognition and is sold through online, more than 30 O.B. stores, and the best retailers and hoteliers in the world. Our customer is truly international, so whether they are in St Barth's for Christmas with family, Miami for a wild Spring break, a conference in Dubai with a few days off, tacking a boat off the coast of St Tropez, volunteering to replant mangrove plantations in Puerto Rico, walking along a cliff top in Cornwall, or diving off one into a beautiful blue ocean then O.B. should be there to help you do it better.

Our business is built on relationships with those customers, and we strive to maintain our relationship with them, wherever they might be, and provide world class service, when and where they want. It is also built on finding new customers to the brand by welcoming them to join the ever-growing O.B. community.

THE POSITION

We are seeking an experienced and highly skilled Senior NetSuite Developer to join our team. This role will work closely with our NetSuite Lead and NetSuite Junior Admin to provide support and drive key projects within our NetSuite environment.

GENERAL RESPONSIBILITIES

- **NetSuite Development:** Collaborate with the NetSuite Lead to design, develop, and maintain customisations, scripts, workflows, and integrations to enhance our NetSuite platform.
- **Support and Troubleshooting:** Provide advanced technical support to resolve NetSuite-related issues, working closely with the NetSuite Junior Admin to ensure smooth operations.

- **Project Leadership:** Lead and participate in NetSuite projects, from requirements gathering to implementation and post-implementation support.
- **Customisation and Configuration:** Customise NetSuite modules to align with business processes, including creating custom records, fields, and forms.
- **Integration Management:** Build and maintain integrations between NetSuite and other business applications, ensuring data accuracy and consistency.
- **Documentation:** Create comprehensive documentation for customisations, configurations, and processes to facilitate knowledge sharing and training.
- **Collaboration:** Collaborate with cross-functional teams to understand business requirements and provide technical solutions.
- **Training and Mentoring:** Mentor and guide the NetSuite Junior Admin, sharing knowledge and best practices for NetSuite development and administration.

QUALIFICATIONS

Experience: A minimum of 4 years of experience as a NetSuite Developer, with a proven track record of delivering successful NetSuite solutions.

TECHNICAL SKILLS

- Expertise in SuiteScript (1.0 and 2.0), SuiteFlow, and SuiteBuilder.
- Proficiency in SuiteTalk, RESTlets, and Web Services.
- Strong understanding of NetSuite customisation (custom records, fields, saved searches, workflows), configuration and best practices.
- Communication: Excellent communication skills, with the ability to convey complex technical concepts to non-technical stakeholders.
- Problem Solving: Strong problem-solving and analytical skills, with a focus on delivering efficient and effective solutions in a fast-paced environment
- Team Player: Ability to work collaboratively in a team environment and lead projects when necessary.
- Certifications: NetSuite certification(s) preferred but not required.
- Bachelor's Degree: A bachelor's degree in computer science, Information Technology, or a related field is a plus.
- Experience with Celigo Integrator, HTML & Strongpoint is a huge plus
- Ability to prioritise tasks/projects efficiently
- Experience/understanding of a retail/Ecommerce environment, particularly omni-channel/multi-subsidary inventory management.
- Good understanding of finance and retail business processes and terminology (stock movements, billing, payments, A/R, general ledger, revenue recognition, planning, audit, and reporting).
- Working understanding of Stock Movements and Financial Postings

WHAT WE OFFER

- Join a diverse working environment of people we learn from daily
- The chance to train and develop your skills in a fun and fast working environment

- Competitive benefits package – 33 days holiday (inclusive of 8 bank holidays), great discount on our products and other brands within the group, flexible working hours, company pension scheme and cycle to work scheme.

It's never just a job at Orlebar Brown. It's a way of life. We live and breathe our brand values – Tailored, Vibrant, and Brave. Our team defines who we are and how we get the job done.
